Handbook of US–China Relations

Edited by Andrew T.H. Tan, Associate Professor, Macquarie University, Australia

This Handbook addresses the key questions surrounding US–China relations: what are the historical and contemporary contexts that underpin this complex relationship? How has the strategic rivalry between the two evolved? What are the key flashpoints in their relationship? What are the key security issues between the two powers?

The international contributors explore the historical, political, economic, military, and international and regional spheres of the US–China relationship. The topics they discuss include human rights, Chinese public perception of the United States, US–China strategic rivalry, China's defence build-up and cyber war.

'Among the multitude of recent books on this topic, Andrew Tan's Handbook stands out as an indispensable source on US–China relations.
