The contributions to this book provide detailed accounts of the long-term effects of financialisation and cover the main developments leading up to and during the crisis in 11 selected countries: the US, the UK, Spain, Greece, Portugal, Germany, Sweden, Italy, France, Estonia, and Turkey. The introductory chapter presents the theoretical framework and synthesizes the main findings of the country studies. Furthermore, the macroeconomic effects of financialisation on the EU as a whole are analysed in the final chapter.
