EU Citizens’ Economic Rights in Action
Re-Thinking Legal and Factual Barriers in the Internal Market
Interdisciplinary Perspectives on EU Citizenship series
Edited by Sybe de Vries, Utrecht University, the Netherlands, Elena Ioriatti, Paolo Guarda and Elisabetta Pulice, University of Trento, Italy

This book analyses three important economic rights: consumer rights, rights of professionals in gaining access to the services market, and intellectual property rights in the light of the Digital Single Market. For each of these rights, contributors analyse the main pathways towards reducing and removing legal and factual obstacles to successful cross-border economic rights. In addition, the book takes into specific consideration the multifaceted issues related to the economic crisis and to the EU’s multilingualism.
