

## Handbook of Research on the Psychological Contract at Work

New Horizons in Management series

Edited by Yannick Griep, Behavioural Science Institute, Radboud University, the Netherlands and Professor Sir Cary Cooper, Alliance Manchester Business School, University of Manchester, UK

The psychological contract is considered a critical construct in organizational behavior literature because it informs employee emotions, attitudes, and behaviors in the workplace. Although the psychological contract has been explored extensively over the last 50 years, numerous theoretical, conceptual, empirical, methodological, and analytical changes have pushed the field forward. As such, it is time to take stock and move forward. The contributors to this Handbook explore in detail this important component of modern management thinking.
