

A Handbook of Economic Anthropology, Second Edition

2nd edition

Edited by James G. Carrier, Indiana University, Bloomington, US

The first edition of this unique Handbook was praised for its substantial and invaluable summary discussions of work by anthropologists on economic processes and issues, on the relationship between economic and non-economic areas of life and on the conceptual orientations that are important among economic anthropologists. This thoroughly revised edition brings those discussions up to date, and includes an important new section exploring ways that leading anthropologists have approached the current economic crisis. Its scope and accessibility make it useful both to those who are interested in a particular topic and to those who want to see the breadth and fruitfulness of an anthropological study of economy.

Acclaim for the first edition:

'The volume is a remarkable contribution to economic anthropology and will no doubt be a fundamental tool for students, scholars, and experts in the sub-discipline.'

– Mao Mollona, *Journal of the Royal Anthropological Institute*

'This excellent overview would serve as an excellent text for advanced undergraduate and graduate-level classroom use. . . Because of the clarity, conciseness, and accessibility of the writing, the chapters in this volume likely will be often cited and recommended to those who want the alternative and frequently culturally comparative perspective on economic topics that anthropology provides. Highly recommended. All academic levels/libraries.'

– K.F. Rambo, *Choice*
