

## Reshaping India in the New Global Context

Subhash C. Jain, University of Connecticut and Ben L. Kedia, University of Memphis, US

This book traces the history of India's progress since its independence in 1947 and advances strategies for continuing economic growth. Insiders and outsiders that have criticized India for slow economic growth fail to recognize all it has achieved in the last seven decades, including handling the migration of over 8 million people from Pakistan, integrating over 600 princely states into the union, managing a multi-language population into one nation and resolving the food problem. The end result is a democratic country with a strong institutional foundation. Following the growth strategies outlined in the book and with a strong leadership, India has the potential to stand out as the third largest economy in the world in the next 25 to 30 years.
