As higher education becomes a key determinant for economic competitiveness, institutions face increasing pressure to demonstrate their fitness to meet the needs of society and individuals. Blending innovative research with richly contextualised examples this unique Research Handbook provides authoritative insights from around the globe on how best to understand, assess and improve quality, performance and accountability in higher education.

‘This book will prove a valuable resource and reference well into the future.’
– Cindy Cogswell, Higher Education Research & Development

‘The advantages of this book are clear: it has informative content and comprehensive perspective.’
– Fengliang Li, Higher Education
