

The World Bank and the Globalisation of Housing Finance

Mortgaging Development

Liam Clegg, Department of Politics, University of York, UK

The World Bank remains one of the most prominent actors in the field of global development, and one of the foremost international organisations in contemporary global politics. Over its history, its lending for housing has mortgaged development by prioritising financial sector expansion over the needs of low-income groups. Through this book, Liam Clegg explores the drivers of World Bank operational practices, and the contribution of these operations to state transformations across the global South.
