

Globalisation and Social Development

European and Southeast Asian Evidence

Edited by Ludo Cuyvers, Faculty of Applied Economics, University of Antwerp, Belgium

The impact of globalisation on social development is a critical issue for both developed and developing countries. In *Globalisation and Social Development*, leading experts investigate this from the perspective of European, and more specifically, Southeast Asian economies including Thailand, the Philippines and Vietnam.

'There is much to commend in this collection of papers to those interested in both globalization per se as well as those interested in economic and social development in South-east Asia.'

– David N. Ashton, *Asia Pacific Business Review*
