

Sustainable Development Indicators in Ecological Economics

Current Issues in Ecological Economics series

Edited by Philip Lawn, Flinders University, Australia

Since the late 1980s and early 1990s, national governments have introduced a range of policy measures designed to steer their economies along a more sustainable path. Yet how are we to know how successful these have been? This significant new book discusses the ways in which sustainable development indicators can be improved in order to both assess the impact of past policies and avoid the repetition of previous failings.

'The book covers a wide range of concepts pertaining to the sustainable development and successfully captures the inter-connectivity of environmental preservation and sustainable development.'

– International Journal of Ecological Economics and Statistics

'... this book is authoritative, objective and essential reading for academics and policymakers concerned with the application of indicators of sustainable development. It takes great care to emphasize what has worked, what has not and what should be our future priorities for research; the combination of these features certainly sets it apart from some other texts in the field.'

– Lee M. Stapleton, Journal of Environmental Planning and Management

'This book presents a comprehensive collection of essays from some of the world's leading experts, surveying and highlighting both the potential and the limitations of a number of indicators specifically designed to measure sustainable development. Illustrative applications are presented throughout in order to demonstrate the value of the approaches discussed. This book is highly recommended for all those who are interested in a better understanding of what sustainable development is and its likely associated indicators, and ultimately aims to contribute to a better foundation for public decision-making.'

– Paulo A.L.D. Nunes, Venice International University, Cà Foscari University, Fondazione Eni Enrico Mattei, Venice, Italy and Vrije Universiteit, Amsterdam, The Netherlands
