The move towards a system of integrated administration in the EU poses considerable legal challenges. This book explores ways in which accountability, legality, legitimacy and efficiency can be ensured in the multiple forms of co-operation of European and national administrations in the delivery of EU and EC policies.

‘But European administrative law is a work under construction. This book helps to explore the current state of affairs.’
— Thomas Gross, Common Market Law Review

‘Dr. Hoffmann and Türk made a name for themselves in the field of EU administrative law with their first collection of edited essays, EU Administrative Governance (Edward Elgar) 2006, which was well reviewed and made an important contribution to the subject. The focus of their new collection, Legal Challenges in EU Administrative Law, is accountability, internal through structures and procedures and external through courts and auditors. With its many useful contributions from well-known experts it promises well.’
