

A Global Approach to Public Interest Disclosure

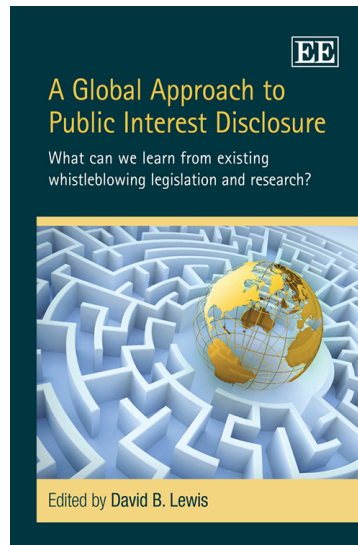

What Can We Learn from Existing Whistleblowing Legislation and Research?

Edited by David B. Lewis, Professor of Employment Law, Middlesex University, UK

This timely and important book assesses the impact of legislation on public interest disclosures internationally, as well as setting an agenda for future research on whistleblowing.

'In this book, David Lewis brings together leading international experts to address the state of whistleblowing law and policy in America, Europe, Australia and South Africa. As well as outlining recent changes to whistleblowing laws and reporting major whistleblower studies, the contributors mount convincing criticisms of current laws and suggest some significant reforms. This book will provoke new thinking among those who view whistleblowing as an important practice, as well as those who are sceptical about its value in organizational life.'
